ENRICHED LIQUID COMPOST

- ❖ Excellent for Seedling Germination
- ❖ Increases Yield
- ❖ Provides vital micronutrients
- ❖ Prevents Infections and repels Insects
- ❖ Healthier, greener, taller and disease resistant plants
- ❖ Can be used on all crops especially vegetables, fruits, cash crops and cereals
- ❖ 60-100% reduction in chemical fertiliser and pesticides

with formulation by

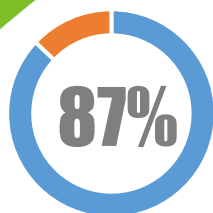

Works best when used with Samvardhak SOLID Compost

**GRASSROOTS
ENERGY**

SAMVARDHAK™ GOLD is made from digester slurry of biogas plants and naturally contains vital plant nutrients including bacteria and enzymes.

This excellent soil enhancer is further enriched with formulation created by Indian Agricultural Research Institute (IARI) after years of research to greatly increase its potential to improve plant growth and decrease infections

SATISFIED CUSTOMERS*

* Independently verified by 60decibels research backed by DOEN Foundation
